Teen driver safety in the spotlight for National Awareness Week

Jamestown, N.D. – National Teen Driver Safety Week is Oct. 19–25, and Vision Zero is urging parents, guardians and communities to take an active role in helping young drivers stay safe on North Dakota roads.

In North Dakota, drivers aged 14 to 19 make up just 6% of all licensed drivers but are behind the wheel in 21% of the state's crashes. Over the past five years, 44 teens have died in traffic crashes.

For young drivers, inexperience combined with risky choices – like speeding, driving impaired, using a phone, not buckling up or carrying too many passengers – can quickly become dangerous. To reduce these risks, Vision Zero Outreach Coordinators work with schools and communities across North Dakota to raise awareness, provide education and give teens the tools they need to make responsible choices behind the wheel.

"Safe driving starts with simple choices," said Joey Carlblom, Vision Zero Outreach Coordinator for the East Central Region. "Show your teen that buckling up, slowing down, and staying focused can save lives every time they drive."

Safe Driving Reminders for Teens

- Buckle up. Every seat. Every trip. Every time.
- Stay focused. Cell phone use is dangerous and illegal for those under the age of 18.
- Follow the speed limit and adjust for conditions.
- Never drive under the influence of alcohol or drugs.
- Limit passengers – more riders mean more risk.
